

# Project Assessment Rubric

	10-9	8-7	6-5	4-0
Functionality	<p>Application contains comprehensive &amp; robust evidence on the following:</p> <ul style="list-style-type: none"> <li>• opens &amp; runs on API 28: Android 9.0 (Pie) without file structure &amp; code modification.</li> <li>• text translation, text to speech &amp; localization support.</li> <li>• selection of well-known phrases.</li> <li>• register a new user.</li> <li>• sign-in using username/password and Google.</li> <li>• interactive quiz.</li> <li>• Google map displaying tourist attractions as markers.</li> <li>• light &amp; dark mode.</li> <li>• splash screen with animation.</li> <li>• adaptive launcher icon.</li> <li>• navigation to fragments.</li> <li>• visually attractive UI.</li> <li>• published to &amp; downloadable from Google Play Store.</li> <li>• UI tests verify correctness.</li> </ul>	<p>Application contains clear &amp; detailed evidence of functionality on the following:</p> <ul style="list-style-type: none"> <li>• opens &amp; runs on API 28: Android 9.0 (Pie) without file structure &amp; code modification.</li> <li>• text translation, text to speech &amp; localization support.</li> <li>• selection of well-known phrases.</li> <li>• register a new user.</li> <li>• sign-in using username/password and Google.</li> <li>• interactive quiz.</li> <li>• Google map displaying tourist attractions as markers.</li> <li>• light &amp; dark mode.</li> <li>• splash screen with animation.</li> <li>• adaptive launcher icon.</li> <li>• navigation to fragments.</li> <li>• visually attractive UI.</li> <li>• published to &amp; downloadable from Google Play Store.</li> <li>• UI tests verify correctness.</li> </ul>	<p>Application contains evidence on the following:</p> <ul style="list-style-type: none"> <li>• opens &amp; runs on API 28: Android 9.0 (Pie) without file structure &amp; code modification.</li> <li>• text translation, text to speech &amp; localization support.</li> <li>• selection of well-known phrases.</li> <li>• register a new user.</li> <li>• sign-in using username/password and Google.</li> <li>• interactive quiz.</li> <li>• Google map displaying tourist attractions as markers.</li> <li>• light &amp; dark mode.</li> <li>• splash screen with animation.</li> <li>• adaptive launcher icon.</li> <li>• navigation to fragments.</li> <li>• visually attractive UI.</li> <li>• published to &amp; downloadable from Google Play Store.</li> <li>• UI tests verify correctness.</li> </ul>	<p>Application does not, or does not fully contain evidence on the following:</p> <ul style="list-style-type: none"> <li>• opens &amp; runs on API 28: Android 9.0 (Pie) without file structure &amp; code modification.</li> <li>• text translation, text to speech &amp; localization support.</li> <li>• selection of well-known phrases.</li> <li>• register a new user.</li> <li>• sign-in using username/password and Google.</li> <li>• interactive quiz.</li> <li>• Google map displaying tourist attractions as markers.</li> <li>• light &amp; dark mode.</li> <li>• splash screen with animation.</li> <li>• adaptive launcher icon.</li> <li>• navigation to fragments.</li> <li>• visually attractive UI.</li> <li>• published to &amp; downloadable from Google Play Store.</li> <li>• UI tests verify correctness.</li> </ul>

Code Elegance	<p>Kotlin &amp; XML files thoroughly contain no magic numbers/strings &amp; are stored in their appropriate XML files.</p> <p>Application code thoroughly demonstrates code elegance on the following:</p> <ul style="list-style-type: none"> <li>• idiomatic use of control flow, data structures &amp; other in-built functions.</li> <li>• sufficient modularity, i.e., code adheres to DRY, KISS &amp; MVVM.</li> <li>• adhere to an OO architecture, i.e., classes, functions, concise naming &amp; functions assigned to the correct classes.</li> <li>• efficient algorithmic approach.</li> <li>• code formatted Kotlin &amp; XML files.</li> <li>• no dead or unused code.</li> </ul>	<p>Kotlin &amp; XML files mostly contain no magic numbers/strings &amp; are stored in their appropriate XML files.</p> <p>Application code clearly demonstrates code elegance on the following:</p> <ul style="list-style-type: none"> <li>• idiomatic use of control flow, data structures &amp; other in-built functions.</li> <li>• sufficient modularity, i.e., code adheres to DRY, KISS &amp; MVVM.</li> <li>• adhere to an OO architecture, i.e., classes, functions, concise naming &amp; functions assigned to the correct classes.</li> <li>• efficient algorithmic approach.</li> <li>• code formatted Kotlin &amp; XML files.</li> <li>• no dead or unused code.</li> </ul>	<p>Kotlin &amp; XML files contain some magic numbers/strings &amp; are stored in their appropriate XML files.</p> <p>Application code demonstrates code elegance on the following:</p> <ul style="list-style-type: none"> <li>• idiomatic use of control flow, data structures &amp; other in-built functions.</li> <li>• sufficient modularity, i.e., code adheres to DRY, KISS &amp; MVVM.</li> <li>• adhere to an OO architecture, i.e., classes, functions, concise naming &amp; functions assigned to the correct classes.</li> <li>• efficient algorithmic approach.</li> <li>• code formatted Kotlin &amp; XML files.</li> <li>• no dead or unused code.</li> </ul>	<p>Kotlin &amp; XML files contain frequent magic numbers/strings &amp; are not or are not fully stored in their appropriate XML files.</p> <p>Application code does not or does not fully demonstrate code elegance on the following:</p> <ul style="list-style-type: none"> <li>• idiomatic use of control flow, data structures &amp; other in-built functions.</li> <li>• sufficient modularity, i.e., code adheres to DRY, KISS &amp; MVVM.</li> <li>• adhere to an OO architecture, i.e., classes, functions, concise naming &amp; functions assigned to the correct classes.</li> <li>• efficient algorithmic approach.</li> <li>• code formatted Kotlin &amp; XML files.</li> <li>• no dead or unused code.</li> </ul>
---------------	--	---	--	---

<b>Documentation &amp; Git Usage</b>	<p>README file contains comprehensive evidence of:</p> <ul style="list-style-type: none"> <li>• URL to application's privacy policy.</li> <li>• wireframes sketched of the application.</li> <li>• step-by-step user guide.</li> <li>• code commented with KDoc &amp; generated with Dokka.</li> <li>• URL to application on Google Play Store.</li> </ul> <p>Git commit messages comprehensively formatted &amp; reflect the feature changes in concise detail.</p> <p>Continuous integration via GitHub Actions is comprehensively setup.</p>	<p>README file contains clear evidence of:</p> <ul style="list-style-type: none"> <li>• URL to application's privacy policy.</li> <li>• wireframes sketched of the application.</li> <li>• step-by-step user guide.</li> <li>• code commented with KDoc &amp; generated with Dokka.</li> <li>• URL to application on Google Play Store.</li> </ul> <p>Git commit messages clearly formatted &amp; reflect the feature changes in substantial detail.</p> <p>Continuous integration via GitHub Actions is mostly setup.</p>	<p>README file contains evidence of:</p> <ul style="list-style-type: none"> <li>• URL to application's privacy policy.</li> <li>• wireframes sketched of the application.</li> <li>• step-by-step user guide.</li> <li>• code commented with KDoc &amp; generated with Dokka.</li> <li>• URL to application on Google Play Store.</li> </ul> <p>Git commit messages formatted &amp; reflect the feature changes in detail.</p> <p>Some continuous integration via GitHub Actions is setup.</p>	<p>README file does not or does not fully contain evidence of:</p> <ul style="list-style-type: none"> <li>• privacy policy discloses user information collected.</li> <li>• wireframes sketched of the application.</li> <li>• step-by-step user guide.</li> <li>• code commented with KDoc &amp; generated with Dokka.</li> <li>• URL to application on Google Play Store.</li> </ul> <p>Git commit messages do not or do not fully formatted &amp; reflect the feature changes.</p> <p>Continuous integration via GitHub Actions is not or not fully setup.</p>

# Project Marking Cover Sheet

Name:

Date:

Learner ID:

Assessor's Name: Grayson Orr

Assessor's Signature: 

Criteria	Out Of	Weighting	Final Result
Functionality	10	40	
Code Elegance	10	40	
Documentation & Git/GitHub Usage	10	20	
Final Result			/100
This assessment is worth 70% of the final mark for the Mobile Application Development course.			

Feedback:

- Functionality:
- Code Elegance:
- Documentation & Git/GitHub Usage:
